**Instructions:** This form indicates which departmental and university requirements you have completed and which you must complete before graduation. If you have any questions, speak to your faculty advisor about department requirements, or to an academic advisor about other requirements.

**Special Notes for Juniors:**

This form is used to determine your eligibility for graduation and must be completed and filed with the Office of Academic Advising in the spring of your junior year.

1. Complete this form and have it approved and signed by your faculty advisor in the spring of your junior year. After this, make an appointment in the Office of Academic Advising and bring this form and a copy of your transcript to the advisor clearing for your major.
2. This form must be filled out **completely** and **neatly**, including course title and number as listed on transcript.
3. When noting that a course has been completed, please write in the grade you earned in that course under the column "Completed."
4. If you have completed the checklist with an advisor in the Office of Academic Advising and you make a change in a required course you intended to take you must notify the advisor of that change.

\*The General Biology sequence will become a requirement beginning with the class of 2005; this will reduce the number of required credits in additional science and mathematics courses to twelve, and will serve to replace the Biochemistry & Cell Biology requirements for premedical students. Students who entered the university prior to the Fall of 2001 are exempt from the General Biology sequence requirement, and will still be required to complete twenty additional credits of science and mathematics courses.

**Twenty (or twelve starting fall 2001) additional credits of science and mathematics courses**

*Please note- In order to meet departmental requirements three (3) of these credits will come from the required introductory-level course 080.205 Systems Neuroscience. If you are premed, these courses should include 030.201 Intermediate Organic Chemistry, 030.204 Intermediate Chemistry, and 030.106 Intro Chemistry Laboratory II. Premedical students also take 020.305 Biochemistry and 020.306 Cell Biology as well as the respective laboratories. If 020.305 and 020.306 are counted here, they cannot be counted toward the Upper-Level Science Course Requirements. The laboratory courses for biochemistry and cell biology should be counted here if you are premed.*
