

Hot Jobs, Cool Internships Newsletter
Engineering
October 16 – October 22

You will be receiving this newsletter every Friday! We'll also be posting all three newsletters on our website at <http://www.jhu.edu/careers/students>.

Featured Employer: Alarm.com

Alarm.com provides web-enabled, wireless security, safety and activity monitoring technology to residential and commercial customers throughout the United States and Canada. Our patented product technology is already used by thousands of residential and small commercial customers. Alarm.com's Engineering team is perfect for candidates who want to gain exposure to a wide variety of technologies including wireless RF networks, intelligent video analysis, device firmware, home automation, web application development, e-commerce applications, and large scale, mission critical database application development.

Device and Software Engineers

- B.S. in Electrical Engineering or Computer Science, MS a plus. Liberal arts academic experience or interests also a plus
- Academic or commercial experience in the development of micro-controllers and/or sensing devices and with embedded software.
- Skilled in hardware design, engineering and integration
- Self-starter, analytical, tenacious problem solver
- Strong written and verbal communication skills
- Rigorous attention to detail with focus on robustness, scalability and quality of products
- Passion for working with technology and excitement for creating high quality consumer technology products

Please apply through J-Connect for Job ID 12558 or 12559, the deadline to apply is October 18, 2009.

JOBS AND INTERNSHIPS
