

Acidophil, LLC (www.acidophil.com) creates new companies, incubates their early develop and manages their early growth. We are currently offering internships to Mandarin-speaking seniors, graduate students, or post-docs with a biochemistry/protein engineering background.

The position

- An intern to work for approximately five to ten hours a week for \$15 per hour.
- The intern would be expected to come to Acidophil's offices at Greenspring station close to where the I-83 meets the I-695 for at least one hour a week.
- Otherwise the intern would have the option of working remotely.

The work

- A supporting role in the development of biotechnology companies and evaluation of opportunities in the life sciences.
- The level of responsibility given to the intern will depend on a combination of the interest and ability of the intern and the current demands of the project, which will change over time.
- The work will be a combination of the routine and the challenging. The intern must be happy to do either type of work.
- Intern will be judged on "work done" not "face time".

Requirements

- Must be fluent in written and spoken Mandarin.
- Must have a background in biochemistry, enzyme kinetics, protein engineering and/or protein design.
- Must be reasonably computer literate.
- Must be a good communicator (written and oral).
- Must be self motivated.

Application instructions

- Send a cover letter and CV to acidophil.llc@gmail.com.
