

Tenure Track Positions, Immunology, University of Washington, Seattle, WA

The Department of Immunology at the University of Washington is continuing to expand and seeks highly qualified applicants for two full time, tenure-track faculty positions at the Assistant and/or Associate Professor level. Individuals working in any area of immunology are invited to apply. The Department of Immunology and the University of Washington provide a robust environment for immunological research with excellent laboratory space, flow cytometry, transgenic animal facilities, and access to contemporary analytical tools to address complex systems at the genetic and protein level.

Requirements: Applicants must hold a PhD or MD degree or equivalent and have a record of published research in immunology. Faculty at the University of Washington engage in teaching, research and service. Successful candidates will be expected to teach at both the undergraduate and graduate level and conduct independent research in immunology. The Department of Immunology offers excellent laboratory space and access to contemporary analytical tools.
