

Tenure-Track Assistant Professor Cell or Developmental Neuroscience, University of Wisconsin/Eau Claire

The Biology Department at the University of Wisconsin-Eau Claire invites applications for a tenure-track Assistant Professor position with a specialty in Cellular or Developmental Neuroscience. Teaching responsibilities include courses in Cellular and Developmental Neuroscience, Human Anatomy and Physiology, and Organismal Biology. An active research program involving undergraduates is expected. To apply, send the following materials in a single PDF format file to biol.neurosci@uwec.edu: a letter of application describing teaching and research interests, experience, and plans; curriculum vitae; copies of all undergraduate and graduate transcripts. In addition, have three letters of reference (as PDF files) sent to the email address. To ensure consideration, complete applications must be received by 10 October 2011. More information about the position is found at <http://www.uwec.edu/biology>
