

## **Medical Science Liaison - Mid-Atlantic, Lundbeck Inc., Washington DC**

Lundbeck Inc. (formerly Ovation Pharmaceuticals, Inc.), located in Deerfield, Illinois, was established in March 2009 following the acquisition of Ovation by H. Lundbeck A/S in Copenhagen, Denmark. We are committed to providing innovative therapies that fulfill unmet medical needs of people with severe, and often rare, diseases for which few, if any, effective treatments are available.

The Medical Science Liaison supports medical strategies for compounds via field-based activities that are aligned with Lundbeck Inc.'s overall corporate and medical affairs goals. Establishes Lundbeck's presence with thought leaders and academic institutions in defined geographies for therapeutic areas of strategic interest to Lundbeck. Provides medical insights from the field to support the development and life cycle management of Lundbeck compounds. Provides medical and scientific expertise to commercial partners as needed and within regulatory guidelines.

Identifies and develops relationships with key thought leaders by engaging in ongoing scientific exchange and balanced discussions regarding Lundbeck's medicines.

Collects medical insights and feedback gathered from scientific exchange with thought leaders and interprets and communicates relevant information to define, update and support medical strategies.

Identifies and facilitates investigator initiated trials aligned with Lundbeck's medical strategies.

Provides clinical trial support by identifying, evaluating, screening and providing scientific support to qualified research sites.

Addresses unsolicited requests for medical information from health care professionals.

Provides medical information booth coverage and session coverage at scientific meetings and reports information of strategic interest to Lundbeck.

Delivers scientific and medical training to internal partners.

Supports Lundbeck's speaker bureau through addressing informational needs of the speaker bureau members as well as faculty.

Provides clinical presentations and medical information to managed markets and government accounts when requested.

Completes all required training, documentation, expense reporting and other administrative responsibilities.

Ensures compliance with all FDA and Lundbeck requirements.

### **Requirements:**

Doctoral degree in a health sciences related field such as PharmD, PhD or MD.

2+ years of health care or related experience (clinical practice, research, academic or managed markets).

Well versed in highly technical and scientific languages to communicate effectively with health care professionals, researchers and other external and internal stakeholders.

Firm understanding of the key phases, processes and techniques involved in the pre-clinical and clinical aspects of drug development.

Possesses superior communication skills, both oral and written and the ability to gain the trust and respect of peers, subordinates and superiors.

Proven track record of teamwork, leadership, timely decision making and delivering results in meeting objectives.

Proficiency in Microsoft Office applications including Word, Excel, PowerPoint and Outlook.

Experience in the pharmaceutical industry.

Experience in the CNS therapeutic area.  
Experience in clinical practice, research, or teaching.

Up to 50% of domestic travel; international travel may be required.
