

Intramural Research Training Award (IRTA),The NIH Office of Technology Transfer, Bethesda, MD

The NIH Office of Technology Transfer has postdoctoral fellowship opportunities available under the Intramural Research Training Award (IRTA) authority to qualified candidates in the field of technology transfer. These fellowships enable candidates to combine their science background with training and experience in the technology transfer field. Fellows work with OTT marketing, patenting, and licensing staff, as well as researchers and technology and business development people within and outside NIH. Fellows are required to spend 20% of their training time in an assigned NIH laboratory and 80% at OTT.

Interns will receive hands-on specialized training.
Interns will be mentored in and assigned tasks related to:

Intellectual Property Basics
Marketing of Technology
Introduction to Licensing and Negotiation Practices
Technology Transfer Policy
Monitoring of Technology Development
Customer Service and Interpersonal Relations

Requirements:

Candidates must have received a Ph.D., M.D., D.D.S., D.O., Pharm.D., or equivalent degree in biomedical or related science.

Candidates must have no more than five years of relevant postdoctoral research experience.

Candidates must be U.S. citizens or permanent residents.

Stipends are determined by the level of education and the number of years of experience post-graduation, and are based on approved Postdoctoral IRTA stipend ranges.

Stipends are paid monthly in arrears.

Annual stipend increases may be given on a Fellow's anniversary date.

An approved plan of health insurance is available through the Foundation for Advanced Education in the Sciences (FAES).

To Apply:

A resume or CV, and
a request for Intramural Research Training Award (NIH Form 2590), and
a statement of interest explaining why you are interested in a fellowship with the Office of Technology Transfer, and
three letters of recommendation.
