

Physiologist/Developmental Biologist
College of Notre Dame of Maryland

The Biology Department seeks a full-time, tenure track assistant professor to teach Animal Physiology, Developmental Biology, Human A&P, and associated laboratories. This position requires a Ph.D. in a biological discipline, a strong commitment to teaching, and the ability to establish a research program that engages undergraduates. Postdoctoral experience is preferred. Opportunities exist for collaboration with the College's newly established School of Pharmacy.

College of Notre Dame is a liberal arts institution dedicated to excellence in teaching. It educates over 3,000 students in a traditional four-year program for women, a weekend and an accelerated program for working adults, and graduate programs. The Biology Department prepares its students for professional school, graduate school or immediate entry into scientific employment. A cooperative, supportive atmosphere is maintained for both faculty and students, and close student/professor interactions are a hallmark of the program. The College and the Department are dedicated to promoting diversity.

Candidates should visit <http://ndm.interviewexchange.com> to apply on-line. Provide a letter of application, curriculum vitae, brief statement of teaching philosophy and research interests, and the names and contact information for three references.

College of Notre Dame of Maryland is committed to diversity in its staff, faculty, and student body. As such, we strongly encourage applications from members of minority groups, women, veterans, individuals with disabilities, and others who will enhance our community.

College of Notre Dame of Maryland is an EEO/AA employer.
