

Technical Advisor Strategic Information Position, Family Health International, Arlington VA

FHI is seeking qualified candidates for the position of Technical Advisor, Strategic Information in Arlington, VA. FHI is a global health and development organization whose science-based programs bring lasting change to the world's most vulnerable people. Our approach is rigorous and evidence-driven. Among our worldwide staff of 2,500 are leading physicians, scientists, and technical experts in health, development, and management. Our work is global in scale yet country-focused, with international offices staffed by local professionals.

This position requires someone with knowledge of HIV/AIDS, reproduction health, family planning, public health, and/or social science research health programs in developing countries, including data management and in-depth analysis for peer reviewed publication and program improvement.

The qualified candidate should have sensitivity to cultural diversity and understanding of the political and ethical issues in assigned areas, e.g. reproductive health, family planning, HIV infection.

Requirements:

Capable of performing responsibilities of Senior Technical Officer, Grade 8. BS/BA in public health or related field, and 9-11 years relevant experience in HIV/AIDS or family planning with international development programs and with proven strong data management and robust data analysis experience and skills; overseas field experience required; or MS/MA/MPH in public health or related field, and 7 - 9 years relevant experience HIV/AIDS or family planning with international development programs and with proven strong data management and robust data analysis experience and skills; overseas field experience required; or PhD, MD or similar degree with 5 - 7 years relevant experience in HIV/AIDS or family planning with international development programs with proven strong data management and robust data analysis experience; overseas field experience required. In addition, has international name recognition among peers in same discipline or program area (can be informally assessed); and has a least 5 professional publications in respected journals or other fora.
